Re: Planning Application – Telecommunications Mast – Greenmount, Bury

I write to you regarding a planning application submitted on behalf of CK Hutchison Networks (UK) Limited to Bury Metropolitan Borough Council for a proposed 5G 16m telecoms installation: H3G street pole and additional equipment cabinets (Planning Ref: 68813).

I am writing to let you know of my objection to this planning application and have written to the Chief Executive of Bury Council and Head of Planning, listing my objections – a copy of which is enclosed as a matter of courtesy and is self-explanatory.

I will reiterate my statement in saying it seems extraordinary that the only consultation yourselves, as the applicant, conducted was with Bury Council, and a single e-mail sent to Greenmount Primary School during the summer holidays. The application provides no evidence to say this e-mail was sent to the correct e-mail account or that it was indeed received. It is inconceivable that this consultation process should have completely discounted all local residents and other local organisations with a potential interest in this application.

As such, I have requested that this application be referred to Bury Council's Planning Committee.

Should you have any comments, questions or queries, please do not hesitate to contact me.

Yours sincerely

A handwritten signature in blue ink that reads "James Daly".
